Neither cited references nor the prior art of record alone or in combination, discloses, teaches, suggests or render obvious that a semiconductor memory device having "second edge portions disposed along the lengths of two parallel edges of said housing, said second edge portions being thinner than a central portion of said housing, two of said plurality of semiconductor memory cards being disposed flat and adjacent to each other along the smaller axis of said housing, and so that one of said first edge portions of each of said two semiconductor memory cards lies in a respective one of said second edge portions of said housing," as claimed in the claim 29. Claims 30-40 depend on the claim 29. All claims have been considered and upon conclusion of a comprehensive search of the prior art, the office indicates that the claims are allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
